

The P5-M seal system combines a robust design with compact footprint to deliver the ultimate entry level to tray and cup sealing, modified atmosphere, vacuum-gas or vacuum skin packaging. A stainless steel sanitary construction ensures the P5-M is at home in any food packaging environment. The P5-M is ideal for small and medium packers and is a handy addition and backup system for large producers as well. Versatile and compact with an attractive price tag, the P5-M is well suited for R&D labs in academic, medical, agricultural and food packaging research centers.

MOBILE, AGILE AND READY TO PACK

System Advantages

- Stand alone, self-contained and portable
- Heavy duty 304 stainless steel construction ideal for food packing environments
- User friendly, color touch screen, operator interface
 - Up to 99 stored product recipes
 - Language selection (English, Spanish or French)
 - Integrated temperature control
 - Menu-driven MAP parameters including gradual vacuum and sealing only
 - USB/Ethernet port
- All electrical components are UL rated
- Easy to load film rack with automatic scrap take up
- Tool-less vacuum chamber removal ensures high standards of hygiene and cleanliness
- Easy seal head change in less than 2 minutes - optional seal head storage cart with pre-heating feature
- Various vacuum pump sizes optional
- Integrated Busch vacuum pump system 20/40/60 m³/h - optional pumps suitable for high-oxygen packaging percentage (>21% oxygen)

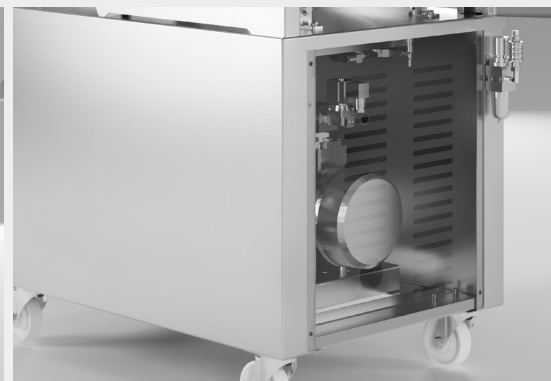

User friendly color touch screen operator interface

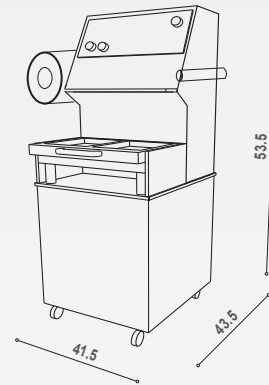

Quick change product change-over

Various vacuum pumps available

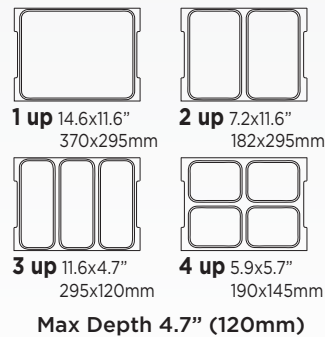

Technical Specifications

Machine Sizes (inches)

Weight lbs (kg)	440 (200)
Frame Construction	304 Stainless Steel
Electrical Supply (standard)	220V 3PH 60Hz
Estimated Amperage (amp)	5.6 - 13.5
Standard Vacuum Pump Size (m3/h)	21
Optional High Vacuum Pump Sizes (m3/h)	43 or 63
Max Reel Film Width Inches (mm)	14.5 (370)
Max Reel Film Diameter Inches (mm)	9.75 (250)

Maximum Tray Dimensions

Operation	Manual Drawer Style
Cycle/min	2/6
Packaging Options	No MAP Sealing Gas Flush Vacuum-Gas Vacuum Only Vacuum Skin Pack
